

RED DUST SHIRAZ 2010

The RED DUST Winery is headquartered in South Australia just North of Adelaide. It is an Aussie/American venture made in collaboration with a very well known wine company that blends this wine to our specifications with wine we source from the best sites in South Eastern Australia.

Shiraz is the heart & soul of the Australian Wine business and RED DUST will specialize in this fabulous variety. We own no vineyards... we buy 50% of our grapes, and since we are so close to some of the best growing areas in Australia like The Barossa Valley , The Clare Valley and the newly discovered Limestone Coast, where some of the greatest wine names in Australia reside, like Penfolds and Henschke, our winemaker has access to some of the best fruit and bulk available. He will buy our base wine in grapes from growers that he has known for 20 years and then blend from his “secret” spice rack of blending materials. This makes us a price/value winery!!

Our 2010 Shiraz is a statement of our taste profile...we are looking for the “Iron Hammer” up-front, but the “velvet glove” of black fruits, pepper and spice, elegance and finesse in the finish that demonstrates that we want to overdeliver to the consumer. We are not just another Australian winery!...we offer you a \$20 bottle for ½ of that price...G'Day, and enjoy Australia !

Cepage: 95% Shiraz, 5% Merlot
